Don't Let Eye Floaters Cloud Your Vision.

Laser Floater Treatment

If you suffer from eye floaters, then you are already familiar with the frustrating visual disturbance caused by these cobweb and cloud-like shadows.

Laser Floater Treatment (LFT) is a minimally invasive, in-office procedure that can provide much-needed relief from eye floaters. It can also delay or obviate the need for invasive surgery.

If you or someone close to you suffers from eye floaters, be sure to explore all of your treatment options.
